

## News Release

**MARKET SENSITIVE INFORMATION**  
**EMBARGOED UNTIL: 1100 (New York) / 1600 (UTC) March 1st 2018**

## J.P.Morgan Global Manufacturing PMI™

Produced by J.P.Morgan and IHS Markit in association with ISM and IFPSM

### Global manufacturing upturn stays solid in February

The global manufacturing sector continued to expand at a solid pace in February. Although the J.P.Morgan Global Manufacturing PMI™ – a composite index<sup>1</sup> produced by J.P.Morgan and IHS Markit in association with ISM and IFPSM – fell for the second month running to 54.2, this was still one of the best readings since early-2011.

*Please note that later than usual release dates meant February 2018 PMI data for South Korea, Thailand and Myanmar were not available for inclusion in the global numbers.*

February data indicated that the upturn remained broad-based in nature. PMI readings signalled expansion across the consumer, intermediate and investment goods sectors, and also in almost all of the nations covered by the survey. The exception was a slight contraction in Malaysia.

Most of the larger industrial nations saw slight growth decelerations in February, including the USA, the euro area, Japan and the UK. Although the easing was marginally greater in the euro zone, it remained the strongest performing region overall. China, Brazil, Australia and Vietnam all saw their rates of growth improve, while Indonesia returned to expansion following contractions in the prior two months.

Global manufacturing production and new orders continued to rise at robust rates in February, albeit the slowest in four months in both cases. International trade flows also improved, as highlighted by a further increase in new export orders. New export business rose for the nineteenth month running. Business optimism remained positive, climbing to its highest level since February 2015.

The ongoing upturn in new business inflows exerted pressure on global manufacturing capacity, leading to another increase in backlogs of incomplete work. Outstanding business rose for the twenty-first successive month, although the pace of growth slipped to its lowest since last September.

The combination of rising new orders, increased backlogs of work and improved business confidence encouraged manufacturers to take on additional staff in February. The rate of job creation was unchanged from January and almost matched December's near seven-year high.

Staffing levels were raised in almost all of the nations covered by the survey. The exceptions were job cuts in China, Russia and the Philippines. Price pressures meanwhile remained elevated, despite rates of increase in output charges and input costs easing over the month.

#### Commenting on the survey, David Hensley, Director of Global Economic Coordination at J.P.Morgan, said:

“The global manufacturing sector continued to achieve a solid pace of expansion in February, according to the latest PMI data. Nonetheless, the PMI, along with the latest data on production and expenditures, indicate that goods-sector expansion is moderating from the red-hot pace of late 2017.”

#### Global Manufacturing PMI™ Summary

50 = no change on prior month.

Index	Jan.	Feb.	+/-	Summary
Global PMI	54.4	54.2	-	Rising, slower rate
Output	55.7	54.8	-	Rising, slower rate
New Orders	55.5	55.1	-	Rising, slower rate
New Exports	54.1	53.3	-	Rising, slower rate
Employment	53.0	53.0	=	Rising, unchanged rate
Input Prices	61.4	60.7	-	Rising, slower rate
Output Prices	54.1	53.9	-	Rising, slower rate
Future Output	64.4	64.7	+	Positive, greater extent

## Notes to Editors:

The Global Report on Manufacturing is compiled by IHS Markit based on the results of surveys covering over 12,000 purchasing executives in over 40 countries. Together these countries account for an estimated 95% of global manufacturing output<sup>2</sup>. Questions are asked about real events and are not opinion based. Data are presented in the form of diffusion indices, where an index reading above 50.0 indicates an increase in the variable since the previous month and below 50.0 a decrease.

1 Data from the IHS Markit survey of US manufacturing are included in the global manufacturing PMI composition from February 2010 onwards. Data prior to that date are based on the ISM US manufacturing survey.

2 Source: World Bank World Development Indicators (2015 data, constant US\$ measure).

3 For these nations, manufacturing sector responses are extracted from whole economy PMI surveys for inclusion in the Global Manufacturing PMI

## Methodology: Global Manufacturing PMI™ Indices

The Global Manufacturing PMI™ indices are all seasonally adjusted. The seasonal adjustment is applied at the national level (as opposed to at the global aggregate level) in order to account for differing seasonal patterns in each of the nations included. Global Manufacturing PMI™ indices are weighted according to national contributions to global manufacturing gross value added. Weights for the global indices are derived from the latest available World Bank data on the gross value added of manufacturing for each of the nations covered. World Bank data on value added are in constant 2010 US\$, with all national currencies converted to 2010 US\$ by the World Bank using DEC alternative conversion factors.

# J.P.Morgan

### JPMorgan Chase & Co.

JPMorgan Chase & Co. (NYSE: JPM) is a leading global financial services firm with assets of \$2.3 trillion and operations in more than 60 countries. The firm is a leader in investment banking, financial services for consumers, small business and commercial banking, financial transaction processing, asset management and private equity. A component of the Dow Jones Industrial Average, JPMorgan Chase & Co. serves millions of consumers in the United States and many of the world's most prominent corporate, institutional and government clients under its J.P. Morgan and Chase brands. Information about JPMorgan Chase & Co. is available at [www.jpmorganchase.com](http://www.jpmorganchase.com).

### IHS Markit

IHS Markit (Nasdaq: INFO) is a world leader in critical information, analytics and expertise to forge solutions for the major industries and markets that drive economies worldwide. The company delivers next-generation information, analytics and solutions to customers in business, finance and government, improving their operational efficiency and providing deep insights that lead to well-informed, confident decisions. IHS Markit has more than 50,000 key business and government customers, including 85 percent of the Fortune Global 500 and the world's leading financial institutions. Headquartered in London, IHS Markit is committed to sustainable, profitable growth. IHS Markit is a registered trademark of IHS Markit Ltd. All other company and product names may be trademarks of their respective owners © 2018 IHS Markit Ltd. All rights reserved.

### Institute for Supply Management™ (ISM)

Founded in 1915, the Institute for Supply Management™ (ISM) is the largest supply management association in the world as well as one of the most respected. ISM's mission is to lead the supply management profession through its standards of excellence, research, promotional activities, and education. ISM's membership base includes more than 40,000 supply management professionals with a network of domestic and international affiliated associations. ISM is a not-for-profit association that provides opportunities for the promotion of the profession and the expansion of professional skills and knowledge. [www.ism.ws](http://www.ism.ws)

### International Federation of Purchasing and Supply Management (IFPSM)

The International Federation of Purchasing and Supply Management (IFPSM) is the union of 48 national purchasing associations worldwide. Within this circle, about 250,000 purchasing professionals can be reached. IFPSM is a non-political, independent and non-profit oriented international organisation, registered in Aarau, Switzerland. IFPSM facilitates the development and distribution of knowledge to elevate and advance the procurement profession, thus favourably impacting the standard of living of citizens worldwide through improved business practices.
